Pre-Wash Snow Foam Concentrate

Pre-foam is a new generation premium quality, foaming, water-based prewash treatment, designed to soak and saturate soiled vehicle paintwork prior to the application of vehicle shampoo.

The result of extensive in-house research and development over many years, pre-foam will reduce even further the possibility of damage to paintwork by presenting you with a dirt free, clear paint surface, ready for subsequent cleaning and detailing.

NEW

5 reasons why this is a pre-wash with power

- ✓ **Gentle** - Pre-foam panel dwells for typically 5 mins where the bubbles pop and move creating a safe clean.
- ✓ **Easy** - Suitable for use with all pressure washer foam lances.
- ✓ **Performs** – This is functional foam rather than superficial high foam with ultra stable foaming properties for maximum effect
- ✓ **Safe** - Does not strip wax, sealant or polish (neutral) Safe for use on most automotive paint finishes
- ✓ **Fully tested** - formulated specifically to offer maximum wetting, it rinses easily.

Directions For Use:

Concentrated Product: Recommended pre-dilute 1:25 with water prior to use. Using a spray foam gun applicator, simply spray over surface to be cleaned. Allow a couple of minutes contact time for the foam to penetrate surface soiling, if necessary agitate with a soft sponge / mitten and rinse off with water. Thoroughly dry.

Existing Vehicle Cleaner Range

[VLB4057](#)

Traffic film remover - Powerful

Specifically developed for:

- Removal of heavy grease and grime from machinery, especially hard surfaces of engines and gearboxes

Suitable for:

- Pressure washing agricultural equipment and industrial plant & machinery
- Ideal for cleaning of curtain sided vehicles which are traditionally difficult to clean

Features:

- Effective at high dilution
- Readily removes grease, oil dirt and grime
- High Foam
- Free from ingredients which accelerate metal corrosion
- Safe on glass, rubber, and plastic surfaces
- Ideal for hot or cold pressure wash machines
- Effective in hard and soft waters
- Contains rinse off additive

Dilution:

- Plant/ tractor cleaning** 1:200 parts water via dilution system
- Brush washing** Pre-dilute 1:50 in water
- Engine/ Gearbox cleaning** Apply neat

[VLB4349](#)

Traffic film remover - General Purpose

Specifically developed for:

- Cleaning vehicle body work, imparting a 'just waxed' look to newly cleaned surfaces thanks to a blend of surfactants with excellent cleaning properties

Suitable for:

- Hand and pressure washing
- Extensively used in roll over brush wash systems
- Any area where grease or oil is a problem, and a more 'neutral' product is required

Features:

- Easily and gently removes road dirt and grime
- Free from ingredients which accelerate metal corrosion
- Safe on most paintwork, metal surfaces, glass, rubber
- Contains rinse and shine additives
- Effective in hard and soft waters
- Biodegradable
- Non-caustic, neutral formula

Dilution:

- Vehicle/ General cleaning** 1:40 parts warm water
- Pressure washing** Pre-dilute 1:1 in water
- Heavy duty / spot cleaning** Apply neat via trigger spray

All Vapormatic quality replacement parts carry an industry leading **12 month parts and labour warranty**. For further information on specific items please visit www.vapormatic.com
