## Vapormatic Lubricants

### Availability

From a growing lubricants portfolio Vapormatic would like to raise your awareness of its Transmission MP and Low viscosity Transmission MP oils. These products are available from our vendor direct partner Exol Lubricants (Terms and conditions apply). Limited production, limited availability, increased global demand are affecting availability from some suppliers but Vapormatic can provide an option for you.

### New packaging

New to market and exclusively available from Vapormatic and Exol, Ex-Box provides a new environmentally friendly, recyclable packaging option. Aimed to reduce customers disposal costs, make dispensing easy and reduce plastic waste.

### Transmission MP

Vapormatic Transmission MP is a high quality universal fluid for tractor transmissions, hydraulics, final drives and wet brakes. A specifically designed lubricant meeting the demands of most agricultural transmission specifications this lubricant suitable for the very latest agricultural machinery. Transmission MP should not be used in engines.

Transmission MP is blended from carefully selected mineral base oils and the very latest additive technology. Benefits include reducing wet brake noise and chatter, outstanding anti wear performance under the most severe conditions and excellent low temperature properties.
